

## Directions to Canon City

From the West (Montrose):

The main road through the mountains in Central Colorado is the CO-50.

When traveling to Canon City from the west you will pass the Arkansas river. Once you crossed the river, you will drive uphill. As soon as you reach the top of the hill, you will find the campground at your right.

The campground is a little away from the road, you please pay attention to the signs, and don't look for a campground.

From the east (Denver):

In Colorado Springs you take the CO-50 towards the West.

Drive through the city of Canon City (and be surprised about the prison in the middle of the town).

A little outside of Canon City you will find a gathering of outdoor services companies nested along the exit towards the Canon City Bridge. Stay on CO-50 for another mile.

You will find the campground at the left side of the road.

As said: the campground is a little away from the road, you please pay attention to the signs, and don't look for a campground.
